Dr. Harmon McAllister
The Council for Tobacco Research - U.S.A., Inc.
900 Third Ave.
New York, NY 10022

Dear Harmon:

I hope this letter finds you well. We are back from France, and I am about to re-enter the world of research.

It is indeed with pleasure that I announce my appointment at the John Wayne Cancer Institute, effective September 21st. Please, at your earliest convenience, forward CTR instructions and grant application materials to me so I can "get started".

Chunfa Huang has done a wonderful job at Bowman Gray; we have two papers "in press". I would eventually like to bring him to John Wayne, but that will have to await funding. I am truly grateful for the help that you and Vincent gave in transferring funds to Winston-Salem. You and the CTR enabled us to continue an exciting line of research (we will send reprints).

An interesting North Carolina aside (for a Tarheel). Back in February I was in line for the Director of Research position at the Carolinas Medical Center, in Charlotte. Jim Martin beat me to it. At least I run in the fast lane!

Please give my best regards to Vincent. I look forward to your reply, and I will telephone when settled in.

Sincerely yours,

Myles C. Cabot, PhD
